

2017 Orthopaedic National Symposium: *Stronger Together*

Preliminary Schedule

Full session descriptions, speaker biographies and times will be posted on the website soon. Keep watching for updates.

Friday, October 20, 2017: 5:30 - 10:00 PM

- Conference Opening and **Keynote: *Gray Cook***
- Reception

Saturday, October 21, 2017: 8:00 AM - Midnight

- 8:00 AM - 5:15 PM: Education Sessions, including **Keynote: *Dave Walton***
- 6:00 - 7:00 PM: Reception
- 7:00 PM - Midnight: Gala

Sunday, October 22, 2017: 9:00 AM - 12:30 PM

- Education Sessions
- **Keynote: *Carol Kennedy***

Sessions for October 21 and 22: Range from 15 minutes to One hour in duration

Mobilization with Movement: The Intersection of Manual Therapy and Pain Sciences - *Dr. Jim Millard and Dr. Jack Miller*

Introduction to the Fundamentals of Concussion Rehabilitation - A Case Study - *Luke Cruickshank*

Is the Pelvic Floor the Missing Link? A multidisciplinary novel approach to manage low back pain and non-arthritis hip pain - *Darryl Yardley and Carolyn Vandyken*

American Physical Therapy Association (APTA) Neck Pain Clinical Practice Guideline - Revision 2017 - *Anita Gross*

Exploring the Pathogenesis of Post-Concussion Syndrome - An Evidence Based Approach - *Luke Cruickshank*

Mechanical Traction for Neck Pain with or without Radiculopathy - *Nadine Graham*

Exercises for Mechanical Neck Disorders: A Cochrane review update - [Meg Smith](#)

The Immediate Effects of Lumbar Gap Manipulation and Graded Lumbar Mobilization on Balance and Gait - [Kara Patterson PT, MSc, PhD](#), [Jackie Sadi PT, MSc, FCAMPT](#)

Mobilization for Neck Pain: A Cochrane Review update - [Reardon R.](#)

Application of the McKenzie System of Mechanical Diagnosis and Therapy (MDT) in Patients with Shoulder Pain; a prospective longitudinal study - [Richard Rosedale](#)

Mobilization-Manipulation and Exercises for Neck Pain: A Cochrane Review Update - [Nejin Chacko](#)

Making the Connection; Linking the Therapeutic Alliance to Patient Outcomes - [Jim Millard and Jasdeep Dhir](#)

Diagnostic Imaging and Rehabilitative Ultrasound Imaging (RUSI) Training & Legislation in Physiotherapy: A pan-Canadian survey of university programs, provincial colleges and Canadian Armed Forces - [Raymonde Fortin](#)

Lumbar Spine Manipulation: Subjective and Objective Indicators Guiding Clinical Decision Making - A Delphi Study Part 1 - [Lenerdene Levesque](#)

Lumbar Spine Manipulation: Subjective and Objective Indicators Guiding Clinical Decision Making - A Delphi Study PART 2: A Clinical Algorithm - [Lenerdene Levesque](#)

Patient Practices: Factors that Influence a Patient's Decision to Discontinue Physiotherapy following an Anterior Cruciate Ligament (ACL) Reconstruction - [Alliya Remtulla](#)

Clinical Use of the Star Excursion Balance Test (SEBT) to Assess Dynamic Postural Stability Deficits Following a Lateral Ankle Sprain in Prognosis of Chronic Ankle Instability - [Allison Gaudet](#)

Death and Cervical Spine Manipulation, Is There a Relationship? A case report and literature review on vascular pathophysiology and examination procedures - [Pierre Langevin](#)

Can a Knowledge Translation Intervention Improve the Evidence Based Management of Lateral Ankle Sprains by Canadian Armed Forces Physiotherapists? - [Eric Robitaille](#)

Five Keys to Understanding and Managing Chronic Hip Pain - [David Lindsay](#)

Rehabilitation Strategies Following Anterior Cruciate Ligament Reconstruction - [Morgan Jennings](#)

Reliability and Validity of the Star Excursion Balance Test (SEBT) for Chronic Patellar Instability - [Andrew Firth](#)

Performance Optimization: Execution of a Quality Strategy to Evaluate Outcomes and People - [Darryl Yardley](#)

Physiotherapy Framework for the Assessment and Treatment of Adolescents and Adults with Scoliosis - [Maureen Dwight](#)
